PRODUCT SPECIFICATION & TECHNICAL DATA

A125 - Nero Grip Glove

Collection: Specialist Gloves

Range: Gloves

Materials: Nylon, PU

Inner Pack: 12

Outer Carton: 144

Product information

One of the most cutting edge gloves on the market. Using a water based technology in the process, this glove is made without the use of DMF (dimethylformamide), a chemical solvent which is present in the majority of Polyurethane gloves. 'Nero Grip' boasts the benefit of being solvent free, which is a necessity for the car industry.

Specialist Gloves

The Portwest Pro range is a combination of highly specialised gloves which have been designed for very specific tasks. The use of these gloves with the right task will perform better than any other glove which has been designed for more general purposes.

Gloves

A wide and increasing range of Hand Protection styles is available. In order to help cater to every need. Only the best materials and manufacture methods are used in the production of Portwests' extensive range of Hand Protection products.
